87 Mr. E. S. Burtlett, the National Card Writer, is still in the city, and is prepared to write visiting cards in any style desired; he executes them beautifully, and they are equal to the finest engraved cards. Specimans are on exhibition at the Post Office and at the bookstore of A. J. Ward; orders may be left at the latter place.

Mr. A. S. Mansfield, of Boston, has been appointed a Commissioner to parchase and sell liquors to the City and Town Agents of Massachusetts. He is sending his Circulurs around in various directions to agents in other States, with the hope, we presume, of doing a profitable business... One of the agents in this city received Circular, and sent the following spicy reply to Mr. Mansfield :--

A. S. MANSFIELD, Esq.,

Dear Sir :- I have the pleasure to ucknowledge the receipt of a Circular from you, by which I learn that you have been appointed a "Commissioner to purchase and to sell to the City and to the Town you could obtain for said agents urticles "of a pure quality and unadulterated with one mixture or noxious or poisonous substance whatever," permit me to inform you that leaving had a long experience in the liquor business, and possessing superior facilities for obtaining articles in every way answering to the above description, I shall be mo t happy to supply you, as of course, un. der the revised statute of Mass, much more liquor will be drank than at any pravious time; and feeling a strong desire to gratify the convivial inclinations of the thirsty souls of that State, I think that when they indulge in their "potations pottle deen," they should use only articles of undoubted puri ty and fine flavor. I, therefore, hope that you will send me your orders, and I will fill them on the most reasonable terms.

BEAT IT WHO CAN .- Mr. Stockford Till ey, of Middletown, in this State, has a flock of twenty-seven South Down ewes, from which he raised last year fifty-five lambs .--Twenty-six of the ewes had twins, and the twenty-seventh had three. They all lived and were sold for five dollars apiece. This year he has nineteen pairs of twins .- Prov Journal.

ARRIVAL OF THE BALTIC.

New York, June 28, 2 a. m. The steamship Baltic from Liverpool, June 16th, has arrived.

Strachan, Paul & Co., London bankers and Halford & Co., agents, have failed. Advices from the United States are look ed for to stimulate the prevailing tendency towards confidence in manufacturing.

This arrival brings telegraphic details of the French capture of Mamelon and White works, after sanguinary fighting, in which ive thousand were killed and wounded .-French took 62 guns and 500 prisoners, and their new positions enables them to shell the shipping in Sevastopol harbor.

Simultaneously the English stormed add-took the riflemen's works in the quarrels, but lost 500 in killed and wounded .-Since then the firing has been slack.

The fleets have arbieved new successes in the Sea of Azoff, and have burned stores at Taganroy, Marioupol and Gonitsch, and a boat expedition is fitting out against Pero-

The Russians are reported to have evacnated Anapa.

Nothing from Tchemaya or the Baltic.

How to Support Your, MINISTER .-Suppose (eays the New York Recorder, in an article on the cost of public worship,) a congregation to consist of 500 individuals, and the whole expense of the society to be \$4000 per annum, what is the cost to each individual each Sabbath? Answera little over 15 cents !- Fifteen cents s weak for religion-enormous !-- Neighbor it you are crushed under the burden just smoke four segars less a week, and it will relieve you,-buy a paper or two of tobacco less, and the saving will pay the minis

THE ARMIES OF EUROPE.-The London correspondent of the National Intelligencer furnishes a list of the land forces of the different European powers, taken from a foreign publication of a high character for necuracy. We copy the following :- England has 230,000; France, 566,000; Russia, 1,154,000; Turkey, 457,980; Austria, 893,-000; Prussia, 580,8000; Germany, 224,6000. Sweden and Norway, 167,500; Denmark 69,450; Belgium, 61,190; Netherlands, 57, 948; Sardinin, 47,659.

A CURIOSITY.—There is now to be seen at Saynnanh, Georgia, an Alos tree, other wise called a Century Plant, twonty-six feet high and containing more than a thousand buds, all of which are ready to bloom. This remarkable true is a native product of Wilmington island. Of its history the first fifty years of its existence we are not infugrate adimitation of the built measure of Col. Honter.

Criminals are lightly dealt with in California. The following is a report by the late arrival:

A case of homicide occurred at San Mateo on the 22d of May, in which a Frenchman, named Francisco Cruciana was killed by a man named Lambort; hoth were old men-The case will come before the Court of Sessions, and meantime Lambert has been discharged from custody on his own recognizance. It is believed that he will be acquitted.

The Deaf Hear .- A curious case of the recovery of the sense of hearing, after it had been lost for a long time, occurred the other day in New Haven. John Connelly, a gardener, who had been wholly deaf for a great many years, was startled while going across the groen by hearing a passing carriage; and since then his hearing has been restored so fully that he can detect the slightest sound.

87 Gen. Sam Houston delivered a speech at Houston, Texas, on the 18th inst., in which he assailed the Nebraska bill, and fired a few random shots at President Pierce. The General said it was his intention to retire into private life.

The Crops .- A correspondent of the Cincinnati Gazettee," who has journeyed through 4000 miles of Ohio, Kentucky, Indiana and other western States, within a few weeks, says he has never seen so broad a portion of the country under cultivation as at the present, or a time when the crops of every description promised a more abundent yield then new. Indeed it would be difficult to point to a single district, in all the wide extent of country I have so recently traversed, that is not likely to return a rich and bountiful havest to the labors of the husbandmen. Now and then, one hears of the fly, the weevil, the clinchbug-but if one takes his own eyes for judge he will come to the conclusion that most of these little devastations belong to another entomological genus, viz :-humbug ! The great mans of the crops are untouched, and will, if no unusual, widespread, and I may say unexpected disaster bafalls, yield up their golden harvest in due season, and in greater abundence than at any time for year paut.

Pleasant Beverage .- James Keenan, ir an interesting letter about Japan, says that "sucie," the principle drink of the country, is supposed to consist of sour whiskey, tobacco juice and aquafortis.

The fear of infection recently caused some persons at Aberdeen, Scotland, to burn all the clothing, and even the prayer book of a deceased cholera patent, but six £1 notes found on his porson were religiously preserved.

A Baker in New Brunswick, N J., who was noted for the smallnes of his loaves, in going his rounds a few mornings since, knocked at the door of a customer.

"Who's there?" inquired the lady of the

house. "Flie baker," was the answer.

"What do you want ?" "To leave your bread."

"Well, well, you need not make such fuse about it-put it through the key hole!

THE MAINE LAW IN MAINE .- The Dem ocrats of Maine, at their State Convention, took very strong anti-"Maine law" ground one of their speakers in favor of their course being ex-Gov. Hubbard, who signed the original "Maino law."

The Common Council of Wocester, on Monday evening, voted with considerable unanimity to appropriate \$1000 to celebrat the 4th of July. The Aldermen, with equamanimity, very promptly vetoed the appropriation. So the citizens will have to celebtate on their own hook.
